

Please reject NAB petition 04-160. XM Radio has finally given us the music and services I have always wanted to hear but not available from any of my local stations. After 20 years of the same Boston, Led Zepelin, Lynerd Skynerd tunes - hosted by ignorant and obscence -on-air talents - its was time for a change. Thanks for XM radio - offerering music and services not found on any of my 20+ local radio stations!!!
